

Live AI games, for *the whole room*.

People play on their own phones — no app, no login, no personal data.

AI runs the game and puts the best answers on the big screen. A facilitator runs the room.

01

Alt Uses

Every use for an object except the obvious one. AI picks the most creative.

02

Inclusion Quest

AI writes a scene with a part for each person. The team acts it out on the floor.

03

Signal Boost

Real or made-up feature? Then prioritise a backlog on a fixed budget.

04

Prompt Battle

Everyone writes a prompt for a real task. AI runs it and scores it out of 100.

05

Wrong Answers

Everyone sends a wrong answer. AI picks the funniest.

06

Opening Night

A 15-minute, four-player game that shows how a team actually works.

Built for your theme and your people. A facilitator runs the room; HR gets the results.

Theatre that performs. On stage. On screen. In your boardroom.
